Theme Install Checklist

---

1. Install & Activate the Super Skeleton Theme

2. Install & Activate the Option Tree Plugin

3. Fill out the Appearance > Theme Options panel.

4. Create a few Pages, don't forget to try out the Portfolio template and Traditional Blog template using category filters! Templates can be selected from the right side of the page editor.

5. Create a new navigation menu under the Appearance > Menus panel. Use the Description field to add subtext to parent menu items. Drag and drop pages, categories, or custom links into your menu, Save it, and assign it to the Top Bar Menu (located at the top left of the menu panel). Hit the Save button there too.

6. Start Blogging! Add some blog posts, and make some of them "portfolio posts" by adding a Featured Image and assigning/creating a category that you've filtered for on the Portfolio pages.
